

## RSP Customer Access Action Plan

### Improving access and service

Recommendation	Action	Due date
Introduce consistent SLAs across channels to encourage digital channel shift.	Update customer service policy and review staffing of CST to facilitate this change in SLAs.  Share this information on the website and through relevant communications with customers.	Complete and ongoing
Review the amount of live chat contacts advisors review at one time to improve speed.	Volume reduced to two live chats per advisor at one time.	Complete but will be kept under review.
Introduce automated messages and turn off live chat when systems are not working so customers are not waiting unnecessarily.	Explore what functionality is possible with 8x8 to provide automated messages at certain times.  Publicise any system downtime through social media channels in real time.	In progress  Ongoing as issues arise
Promote digital channels, whilst ensuring alternative options are provided for customers who are digitally excluded.	Continue targeted campaign promoting customer portal.  Regular, ongoing promotion of other digital channels through relevant communications including rent statements, community newsletters, social media, website and email campaigns.	Ongoing.  Ongoing
When calling customers back, if the customer does not answer, send a follow up text or email	CST will continue to use voicemail for this because it's easier to maintain quality control and it ensures customers know who has contacted them.	Complete.

to ask for the best time to contact the customer.	Planners are using Oneserve to send messages using templated tools to ensure quality and consistency.	
Review the opening hours of CST and the support available to them from 'experts' during these times to resolve contract at the first point of contact.	Opening hours changed from the 4 <sup>th</sup> November 2024 and customers informed.  6-month review shows there has be no adverse impact for customers and more IVH colleagues are now available to take phone calls during the busiest times of day.	Complete.
Increase Neighbourhood Officer knowledge of patches through meaningful engagement with long-standing residents as part of induction.	This is being considered as part of the new customer and communities strategies, including the development of the Community Connector role for engaged customers.	In progress.
Increase customer drop-ins in neighbourhoods and consider the times of these to enable customers to attend.	An programme of drops ins for the year is promoted on our website.  Consider provision of out of hours drop-ins.	Complete  Currently being considered and arranged by neighbourhoods team.
Continue to promote neighbourhood audits alongside the times when Neighbourhood Officers will be working out in neighbourhoods.	Use community newsletters to share impact of neighbourhood audits and encourage more customer participation.  Ensure website is up to date with upcoming events and that audits take place at the advertised time. Promote audits on social media, including an invitation to customers to join in.  Share dates, times and calendar of events through email and text campaigns.	Complete and ongoing.
Communicate details of new Neighbourhood Officers as soon as they are allocated to patch including how to contact them.	Incorporate promotion of NO into the automated suite of welcome emails a customer receives before and after they move in. In time,	In progress and ongoing

	<p>integrate this process with Rubixx so the message can be generated and issued automatically.</p> <p>Deliver multi-channel comms campaign (via email/text/post) to introduce new area-based teams to customers.</p> <p>Re-introduce post-code search functionality on the website and promote through various channels to help customers check key contacts for their area.</p> <p>Issue regular, personal community newsletters to all customers. Review how these are presented/delivered to ensure accessibility for all (see point below).</p>
